TO : DIRECTOR, FBI (100-3-102) DATE: 6/8/59
FROM : SAC, NEW YORK (100-128861) (415)
SUBJECT: CP,USA - FUNDS (RESERVE FUNDS)
IS - C

On 6/2/59, NY 694-S* advised SA ALEXANDER C. BURLINSON that in a conversation on 6/1/59 with ISIDORE WOFSY, the latter told him the following:

Bids up to \$325,000.00 for the purchase of the building at 35 East 12 Street have been received. As many bids as possible will be received, and the highest will be accepted. CHARLES KELNER, who desires to buy the building, will be told that he may purchase the building at a price equal to the highest bid, provided payment be guaranteed.

WOFSY stated that during the past few weeks he had been given \$14,000.00 by EUGENE DENNIS, and that this money had been "a life-saver." The money, he said, was not for the Reserve Fund, but rather was to be given, as needed, to PHIL BART for the

payment of National Office expenses. WOFSY stated he did not know where DENNIS had obtained this money, and expressed the opinion that it might have come in "quietly" from the CP fund drive. (NY 694-S* stated that he did not think WOFSY actually believes the money came from the fund drive since the latter must be aware that the fund drive is a failure.)

NY 694-S* stated that the \$14,000.00 is undoubtedly part of the funds described in the case entitled "SOLO, IS - C." The informant noted that in accordance with DENNIS' method of distributing the "SOLO, IS - C" funds, neither WOFSY, PHIL BART, nor any other CP functionary knows whence money they receive from DENNIS is coming.

WOFSY further remarked that PHIL BART is clashing with the NY State CP regarding "the split" of money received from the fund drive and donors by the NY State CP. BART and DENNIS would like a fifty-fifty "split," but in WOFSY's opinion, the NY State CP would never agree to such an arrangement. WOFSY believes the National Office could obtain--and should accept, since it cannot hope to obtain more--40 per cent as its "split."

WOFSY also stated that the NY State CP finally has negotiated a settlement of its debt of \$23,000.00 by a payment to the National Office of \$6,000.00.

WOFSY expressed the opinion that in view of the fact that dues payments to the NY State CP are negligible, the said state organization must have a large reserve fund "somewhere," and that both WILLIAM ALBERTSON and BENJAMIN DAVIS, JR., must have knowledge of this fund. He also thought EUGENE DENNIS might know something of such a fund.

According to WOFSY, WILLIAM PATTERSON was recently "called in by the top brass" and told "to lay off his business enterprises." As a result of PATTERSON's "pushing at the embassies" and "MILTON FRIEDMAN's going to Hungary," they obtained "a \$15,000.00 retainer from Hungary." From this money, FRIEDMAN paid himself \$5,000.00 in legal fees. The Party believes PATTERSON "took a chunk for himself," and may have given some to "The Worker."

The Party feels that this situation may result in a scandal, and has assigned PHIL BART to investigate the matter. WOFSY believes that BART, MORRIS CHILDS of Chicago, and he should confer regarding this situation.

SUBJECT: CG 5824-S*

On the afternoon of June 17, 1959, SAC WILLIAM H. WILLIAMS of the Minneapolis Division telephonically furnished the following information:

CG 5824-S* first entered Mayo Clinic on July 9, 1952. He has clinic number 1-869-157. He stated he was afflicted with TB at 16 years of age, with recurrence at the age of 17. He was confined at the Winfield Sanitarium, Winfield, Illinois (dates unknown). In 1948 he had a coronary occlusion; was treated by Dr. AARON, New York City. In 1950 he had a coronary infarction; treated by Dr. S. PEARLMAN, 30 North Michigan Avenue, Chicago.

A 1952 visit to the clinic was for the purpose of a physical examination. It was determined that he was suffering from coronary sclerossis with angina pectoris with a slight hernia. He returned to the clinic on June 4, 1959; discharged June 6, 1959, ten pounds heavier and the diagnosis was he had a progressive coronary sclerossis and hardening of the arteries. He had static backaches but no indication of hernia.

Comparison of the electrocardiograms from 1952 to 1959 reflected no diagnostic abnormalities now and the infarct which ruptured small vessels in the heart was from the earlier coronary infarction back in 1950. The clinic suggested that he go on a low fat reduction diet. It was stated that they felt he should reduce his work load and not work as long. No suggestions were made as to what action he should take, leaving that up to him. They also suggested that he undergo a diet of long-time anti-coagulation to thin his blood if his family doctor so agreed. It was suggested that he consider increasing his dosage of nitroglycerin for the purpose of reducing the pain.

Mr. BLACKMAN, who is the head of the Legal Department of Mayo Clinic, said he felt his physical condition in 1959 was not worse than in 1952 and there is no cure of his heart condition. There is no medication which will help the hardening of the arteries. It is not possible to predict the possibility of any future heart attacks but it is expected that if he dies of natural causes it will result from hardening of the arteries.

SUBJECT: NY 694-S*
CG 5824-S*

Re New York letter April 30, 1959, setting forth an accounting of the operations of the cover company for NY 694-S* and CG 5824-S*.

The office of the cover company in Chicago is presently in the Field Annex Building. CG 5824-S* has advised that three other persons are utilizing the office space presently rented in Chicago. This space for the cover company costs a little under \$50 per month. While a telephone answering service is employed, it is not possible to have a private phone installed in the space now being rented. The room, which is shared by three other people, is approximately 12 feet by 12 feet. This means that there is very little space for storage of the products being sold by Arisco. Yet most of the mail order business for the cover company is handled out of the Chicago outlet. In addition to a lack of space there is a lack of privacy since the other persons sharing the space can listen to all conversations and telephone calls and in general have an

idea of how much business is actually being done by the cover company.

CG 5824-S* has advised that space which would not be shared by anyone else can be obtained in the same building for approximately \$85 a month. This space would also permit the installation of a private telephone. A phone answering service would also have to be used since the office would not be occupied most of the time. CG 5824-S* estimates that rent, a private phone and the telephone answering service would amount to about \$100 per month if this more suitable space were obtained.

CG 5824-S* pointed out that a more suitable office space would make the cover company much more realistic. Thus he would be able to take members of the Communist Party (CP) of Illinois or leading national functionaries, visiting in Chicago, to the office so that they could actually see that this is a going operation. It is impossible for him to do this at the present time. In addition CG 5824-S* could utilize the space for conferences with leading Party members when they do not want to discuss some matter in the headquarters of the CP of Illinois, which is located within a few blocks of the Field Annex Building. A more suitable space would also permit storage of additional stock in order to insure that all mail orders can be promptly filled. Further CG 5824-S* could occasionally use the private phone for calls to the contacting agent. It is felt that this would be more secure than the use of public phones for several minutes with the possibility that he could be observed and overheard by a CP member.

For the above reasons it is felt that the additional expenditure of approximately \$600 a year is necessary and desirable in order to make the cover operation in Chicago more realistic.

[redacted]

134-46

b7D

It is therefore requested that the Bureau authorize the renting of space at \$85 per month, plus the installation of a private phone. Further that this expenditure be paid out of the funds made available by the Bureau to the New York Division for the operation of the cover company. If the Bureau makes this authorization the New York Division, after consultation with NY 694-S*, should advise the Bureau whether additional funds will be necessary for these added costs or whether they can be paid out of gross receipts of the cover company.

DATE: July 6, 1959 b7D

✓ FROM : Director, FBI (100-340711) (61-7665)

SUBJECT: NY 694-S
CG 5824-S

ReCGlet 6-22-59 requesting authority to rent new space in the Field Annex Building for the Chicago office of the cover company being utilized in the operation of these informants. This new space would rent for \$85 per month instead of \$50 per month now being paid but would be a private office and permit the installation of a private phone which is not now possible. According to reflet this new space would give privacy for the operation of the cover company and CG 5824-S could take comrades to the office where they could actually see the cover operation and therefore afford greater security for the informants. In addition this space could be used for private conferences with leading Party members and CG 5824-S could also use the private phone to call contacting Agent. None of the above can now be done as the present space used by the cover company is shared with three other people. The present space also does not permit the installation of a private telephone.

As a means of affording greater security to this important operation, authority is granted to change the space being used by the cover company in Chicago as requested and the New York Office should include this additional cost in the accounting of the operations periodically furnished to the Bureau.

In reflet New York was requested to advise the Bureau, if this change was approved, whether additional funds will be necessary in view of this added cost. Such advice from New York is not necessary as any additional cost should be taken into consideration by New York in setting forth the accounting of the operations of the company.

Utmost caution must be exercised with respect to dissemination of information contained herein inasmuch as said information, by its nature, tends to identify NY 694-S*, a valuable informant, as the source thereof.

Reference Buairtel, 7/15/59, captioned "COMMUNIST INFILTRATION OF THE UNITED STEEL WORKERS OF AMERICA, AFL-CIO; INTERNAL SECURITY - C; OO: PITTSBURGH."

On 7/17/59, NY 694-S* advised SA ALEXANDER C. BURLINSON that on the aforesaid date, PHIL BART, CP, USA Organizational Secretary, furnished to him the following information:

The first CP conference regarding the steel strike is scheduled for Monday, July 20th, in Cleveland, Ohio. A second conference is scheduled for July 24th in NYC.

ANTON KRCHMAREK of Cleveland CP attended an all-day meeting at CP Headquarters in NYC on 7/16/59, at which CP tactics to be used in steel strike were discussed. KRCHMAREK was instructed to contact, on 7/17/59, all CP districts concerned with strike and to furnish instructions to said districts re CP tactics to be employed in strike. The CP National Office is contemplating large distribution of literature in strike areas, including a "steel edition" of "The Worker", a "flyer" and a "Worker" supplement. Attempts are being made to obtain contributions to defray expenses of these publications.

The CP is extremely critical of SAM KUSHNER for having attempted to obtain telephonically from POTASH information re dates of CP steel meetings and planned tactics. The Party is charging KUSHNER with having done nothing for CP in instant steel strike situation except "to write about it from a distance."

REMARKS OF MORRIS CHILDS

In that book, "What we Ought to Know About Communism," HARRY and BONARO OVERSTREET (PH) had a section dealing with Latin America and the so-called Communist theory of the strategy of boldness.....That is viewing the hemisphere as a whole. They put it forth of course, in order to point to the dangers that US imperialism faces because of the unity of the various Communist Parties in the approach to the problem of Latin America. They even go into the population of the Communists percentage wise as compared to the northern Parties.

They put forward this theory of the "strategy of boldness" for altogether different reasons than we might do. They want to show that Latin America, the various Latin American countries are decidedly in league with the United States and that they must remain an imperialist preserve.....By using this scare of the strategy of boldness on the part of Communists they hope to unite the bourgeoisie....in order to get them out of their lethargy and so they will understand the seriousness of the situation in Latin America. Of course our ideas of international solidarity require that we fight our own exploiters who now hold Latin America in a grip. oppress the people..... We should help them by fighting against world imperialism so that they can break this yoke of exploitation.

I want to deal briefly with four things:

NY 100-80641

1. A brief statement of the current situation in Latin America.
2. The role of the CP.
3. The ideological questions involved.
4. The tasks "we" have in this field of struggle.

We know that most of Latin America at this moment from Cape Horn to the Florida Straights is in a state of unrest, upheaval, and revolution. We can also note....that many of the cruel dictators are now history in Spanish speaking America.....Last week there was an article in "The New York Times"..... concerning the danger signs of deep unrest. Of course added to some of the struggles that have taken place recently there are the new struggles in Brazil, Colombia, Argentina, the Dominican Republic, and other places. I think we have to view this problem in a broader sense. Some writers for the bourgeoisie came to understand as we do that the colonial system is disintegrating. Together with the emergence of a world-wide system of socialism...the struggle is spreading and this is one of the distinguishing features of the present. These revolutions that are taking place now in Latin American countries are not like the old palace revolutions....These are revolutions based upon economic and social fact. The dictators would wish that it were like the old days where they could replace one dictator with another.

NY 100-80641

A. A. BERLE (PH), JR. in a recent issue in the "Reporter" opened up by saying that Latin America is entering a new and possibly crucial stage..... He says the issue is whether the southern section of our hemisphere stays with the democratic left..... He goes on to say that for the first time since the Monroe Doctrine was proclaimed in 1823, the Americas could break in two. "I" think that BERLE is not far from the truth. In his conclusions he says that the revolutions in Latin America could go in either direction, either in the direction of Washington or in another direction. He (BERLE) does not know which way it will go. He has a program which he thinks, if put into effect might still lead the Latin American revolutions in the direction of Washington and imperialism or as he says toward the free world.....

The bourgeoisie now admit that the changes taking place in Latin America are deep.....economic and social changes. Only this morning we saw the note of the American Government to the Cuban Government protesting against the new land reform law.....The independent movement in Latin America cannot be separated from the broad movement that has developed in Asia, and Africa. Undoubtedly these movements for independence have the strength and chance for success.....greater now than ever before.....In the various discussions among the Latin American Parties, we get the idea that the Parties, though they may fall in some cases, they are not all at fault. They have roots among the masses and this is a very important feature. This is reminiscent of the days of 1913 in Russia, where on the surface the capitalist regime looked strong, seemed to have power, and it was thought almost impossible that such a regime could be overthrown..... The same holds true in the majority of the countries in Latin America.

NY 100-80641

Another very important question in many of the Latin American countries with the possible exception of one or two there are Communist Parties. No matter what their size they are functioning, they are working, they are making time with the masses. American imperialism has not the prestige it had a few years ago in fact we can say that the prestige of recent years has hit a low, especially in the Middle East. As we all know imperialism intervened in Lebanon..... This loss of prestige on the part of American imperialism could not stop the revolutionary movement for independence in the Mid-East. This had a terrific influence in Latin America, and a terrific influence on large masses of the bourgeoisie.....

We should have a better idea of the role that US imperialism plays in every phase of life in this or that Latin American country. The Latin American Parties are resolving some important ideological, and tactical questions. One of the ideological questions is when does the national bourgeoisie play a progressive role? Can they participate in the anti-imperialist struggle? Some of these Parties have committed serious errors either in overestimating the role of the bourgeoisie or in underestimating it. In one of the recent issues of the "World Marxist Review", Comrade RODNEY (PH) deals with this question in great detail..... We cannot treat this question lightly..... The Iranian comrades have developed a thesis which has been published recently which goes into this problem. The general conclusion of most of the Parties..... is that despite exaggeration the national bourgeoisie in the main can still play an anti-imperialist role..... The common feature

HCO:KMI

5

NY 100-80641

of a national liberation revolution is that the national bourgeoisie participate and I am in agreement with such conclusions.

Now comrades some other problems and that is can revolutions stand still. History shows that political movements and a revolution even if they succeed temporarily cannot halt. They either go forward or reaction sets in. They have to move in a certain direction or reaction can take over. We have..... the situation in the bulk of the Latin American countries at the present time.....

In discussing the forward march of the revolution and resolving some of these basic problems of class relationship, the Party sets itself very simple tasks..... in a general manner but that it should be taken up later in many concrete forms. What is the first task of every Communist Party in Latin America in this revolutionary situation? It is to strengthen themselves among the working class. First of all to begin to work in the trade unions. They should put that task #1. The intensification of the (mass) liberation movement is also a task. Task #3 is the solution of economic and political problems

.....
In Latin America..... not all of the struggles in the various countries are on the same level. Some are on a higher level as is the case in Cuba and Venezuela, but when the masses in one country start a struggle and a revolution, let's say as at the present in Cuba, this spreads..... This is the way the revolutions are developing in Latin America. It is like the struggle against war. One country alone cannot do it but many count together could fight and defeat war mongers. We can, as the comrades in these various countries say, that every blow against US imperialism in Latin America is at the same time a blow for international peace.

NY 100-80641

This struggle then cannot be separated from the world situation and struggle for peace. The struggle against US imperialism is the main struggle for peace and international freedom. Imperialism without colonies is a (false) imperialism and a much weaker imperialism and, therefore, the struggles in Latin America assume the greatest significance. Now comrades let's see how the Venezuelan Party went through their revolution and continued its struggle. I am not dealing with the Cuban situation because JOE (NORTH ?) has reported to the committee here. We are more or less acquainted with the situation in Cuba as of now. The Venezuelan Party started the struggle against the dictatorship there. It was a small party of some 350 members, all of them underground with the exception of a score here and there working for what they called the legal organizations. But nevertheless, they succeeded in setting up a united front of four Parties. The program consisted of only two demands in order to get the broadest possible support. This program was agreed to by two of the biggest Parties..... and despite the number , the Communist Party was considered the second biggest (one ?). The first demand was the overthrow of the dictatorship and the second demand was the establishment of constitutional liberties. The dictatorship was in the hands of the (much hated ?) bourgeoisie and a few feudal "hangers on" who acted as agents for US imperialism. They were supported in every possible way by US imperialism. They in turn supported the US policy of the cold war and the policy of war against the people and against socialism.

The dictatorship was a corrupt one and sometimes we use this term in a general way, but the comrades in Latin America explained how this (clique) would sell out

NY 100-80641

their country. An individual would sign a contract and give away a factory, a city, a mining field, or an oil field. They would not put it before the governing body for approval or rejection or even discussion..... and so US firms plundered all of Venezuela. Every class with the exception of a small group of the (special ?) bourgeoisie was dissatisfied. The national bourgeoisie in the main was dissatisfied as well as some bankers and a large section of the land owning class. The wage earning class was dissatisfied and wanted higher wages, demanded the right to organize and so on..... It even went into the army, yes even within the officers' corps. The Army was full of contradictions with the bulk of the Army against the repressions..... and the American Military (Mission ?) participated directly in running the country.....that suppressed the people and jailed the people. They even carried on terror within the military.....

The Communist Party carried on the struggle for democratic freedom, for unity of all who wanted to fight the dictatorship. They urged the formation of an anti-imperialist (struggle ?) and at the same time urged the working class to form their own trade union. The Party continued at the same time to urge (utilization ?) of large sections of the bourgeoisie, to work amongst doctors and bankers, though not concentrating upon them..... The Party kept emphasizing that all should unite against the dictatorship..... It is only after the setting up of a true Democratic Government, the Party said that we shall work out a program and resolve our ideological differences.....

in the early there were some differences. There

NY 100-80641

were some voices against the broad united front. Some thought that the broader struggle, the sharp struggle, was to be conducted against the national bourgeoisie. Yes even against those instead of against the dictatorship and American imperialists....., but the Party in the main, remains firm. It (fears ?) the influences which separated the Party from the masses and it (fears ?) bringing this policy of a broad united front into the legal organization. Carrying on a lot of political work..... and a cadre was trained in the struggle..... It was the correct policy that made it possible..... to take the power and to proceed in the setting up of a more orderly democratic machine. American imperialists worked feverishly during this period. First of all they were not getting through and when they saw the possibility of the overthrow of the dictatorship, they began to make overtures to the so-called opposition..... They were afraid of a repetition in Venezuela of what took place in Colombia. You remember when the masses got out on the street and used their power to smash the corrupt regime. The American imperialists thought that they could still guide this situation and prevent the masses from participating in the overthrow of the dictatorship, but because of the Party's timing for the masses, the strike of November 21, 1957 was decisive. It was this strike and the demonstration of bringing the people out on the street that made it possible to defeat the maneuvers of US imperialism and overthrow the dictatorship.

At that time, the Party had not only groups in the trade unions, but established groups in the neighborhoods, student organizations and so on.....

NY 100-80641

The Communist Party alone played a decisive role in the struggle on the street. And in May, 1957, when there was another danger to the revolution, here again the Party used its influences particularly in the Printers' Union which gave the signal for the general strike, and at the same time began to stress the economic demands which mobilized more and more workers and put an end to this treatment, to this threat. Of course, on January 21 and 22, the big strike movement paralyzed (Everything ?)..... and the revolution was assured. Then the Communist Party told the people that a new situation had arisen. The Communist Party came out in the open and was now a legal party. That is how we have got to prepare for more major attacks.

The Party put out demands for a free press, for all freedom. The Party praised those (flyers ?) and the military was lined up with the people against the threat of a dictatorship coming back. The Communist Party gave its support to the temporary (junta ?). The Party began to rebuild itself and four months later the Communist Party in Venezuela could claim a membership of 27,000 and a youth organization of 31,000. That was about the middle of last year.

Informant advised that an unidentified individual interrupted CHILDS to ask "What did you say for the youth?" Continuing, CHILDS remarked "31,000", 350 to 27,000. I am not sure of the exact date but before last Fall..... What I am talking about here comrades is not based upon reports of one individual. The Communist Party, after that situation, organized itself in a series of plenary sessions, month after month, where they had to hammer out a line and had to come to some conclusions.

NY 100-80641

The Party as I said before gave the political leadership to the masses. First of all the masses in the trade unions and the masses on the streets..... But we made some serious mistakes. I am speaking now of the Party itself, one of the most serious mistakes..... They (counterpoised ?) the USSR vs. Imperialism. They feel that they (counterpoised ?) it too early in the stage of the revolution. It was a very serious mistake that caused them some serious set backs for a short period of time until they recognized that mistake.

For example, they charged that the (masses ?) were not clear in their understanding of what is imperialism. They even charged some people with being agents of imperialism, ordinary workers, ordinary middle class personalities, as being conscious agents of imperialism because they did not have the time..... or did not accept the policies of a break with imperialism..... as followed by the socialist countries. In the early stage of the revolution, the Communist Party did not have a concrete overall program. They had some plans..... but they did not have an overall concrete program. For example how were they going to correct the situation. US imperialism dominates the economy. US imperialism which was..... a dictatorship dominated all political and social life. They had to work out a program and they committed another serious mistake in trying to work out a program. In being self-critical they failed to ask them (the masses) what they really wanted..... This error really originated in the underground and it was only after they (had) contact with the people who participated in the revolution that they saw that this was bad..... was incorrect and cost them dearly. They immediately set about to correct it.

NY 100-80641

When they set about to correct the error they began to grow..... because they (began to ask ?) how they can influence all progressives..... The Party has to convince the masses the working class, and peasants, and other sections of the population that it is the leader of the revolution.....

At the time of the revolution there were 4000 political prisoners and they had to be released : It was only after the Party recognized its mistakes, that it began an ideological battle inside the (Party ?) They began to learn from the 20th Congress of the CPSU and the Chinese Party and began to use self-criticism. It had to carry on a struggle against the cult of the personality which (broke into ?) their Party too. It was only after this that they really began to grow and express themselves. The masses began to look to the Party for ideological leadership. Then they began to work not only in the trade unions but among the women and the youth and the Party was represented not only through its own organizations..... but actually was represented including mass organizations. That is people speaking with the ideology of the Party but representing organizations that were much broader than the Communist Party.

HCO:jxb

NY 100-80641

REMARKS OF MORRIS CHILDS CONTINUED

They were (strong?), first of all in the trade union movement. The Party, of course, had to form a ... because there was no present organization. They had to form them in order to get going and this mass work enabled them to get out of their (crisis?)... especially their hard work amongst the factory workers. The Communist Party is now first amongst the trade union and amongst the students. The Communist Party, in order to continue the influence in trade unions, has encouraged students to go into the factories for at least a year

The Party ... put forth a slogan which (stimulated?) a lot of influence. One, it demanded a real democratic government, two, government must be anti-feudal and anti-imperialist ... Now three candidates out of the four agreed to these demands in the last election and one candidate who did not agree did not dare to openly oppose these demands. The Party used the elections in order to popularize the demands and to make them understood and expose the enemies of the people. The reactionaries should not be underestimated as they were still quite active but the interesting thing is that even the other parties, which were made up of other classes ... used the Communist Party as a (test?) force. That is ... they would come to the Communist Party to talk things over and to seek advice.

What were the slogans that the reactionaries used so successfully? First of all they said Communists are foreign agents; that the Communists work for the Soviet Union; that the Communist Party believes in force and violence; that the Communist Party grabbed the (archives?) of the police and they intend to use this in order to destroy large sections of the population if they did not agree with them. The Party has to struggle and continue to struggle in order to expose the fraud that is contained in these slogans.

NY 100-80641

Informant noted that at this point the speaker was interrupted and asked a question, but this information was not available to the informant.

In apparent answer to the question, CHILDS stated that what he meant was they carried on meetings, demonstrations, street meetings, etc. Now, of course, remember, this is all telescoped for a particular short period of time, so I don't know how successful they are. They claim that they are meeting with success as you can see by their growth and, of course, their influence in the trade union movement...

The fact of the matter is that they (denounced?) the candidate that won ... They (compelled?) the winning candidate to keep in line and not fight against some that they had put forward. They had many problems to solve ... like financial independence. ... for a time they also had opposition from the right ... but their problem was the failure that we spoke of before, that which grew out of the underground situation, this sectarianism. This sectarianism, of course, was overcome by the process of mass work. Also, this ... sectarianism united the Party because they had a greater tie-in with the masses. They are going to resolve these problems and they are working on a basic program, and they are working on a (liberal?) program for the united front.

There is a couple of other situations which they did not take into consideration prior to the election, but they did give consideration to the fact that 47 per cent of the people did vote against ... The leading candidate got 53 per cent of the vote and the opposition 47 per cent. They have four Senators in the legislature and they have seven Congressmen. They are doing some work in many places that we can't even conceive of working... I spoke, Comrades, of only one Party.

NY 100-80641

Part of the working class belongs to the same union but they ... work for a fifth of the wages, sometimes a tenth of the wages, that the American or the white worker gets for the same job in the area. If he is an American he gets \$2.50 an hour but if he is Panamanian he gets .50 for the very same job. The union officials do nothing about it ... We should pay attention to some of these problems ... There was an underestimation of the bourgeoisie within the regime ... They underestimated the power of the masses at the crucial moment and the petty bourgeoisie influence prevailed and the regime was overthrown.

What I have to say is that - built itself carrying on its work. It is still underground but has established certain legal positions. It also executed a very deft maneuver during the election campaign wherein it succeeded in mobilizing 70 per cent of the votes against candidates of United States imperialists ...

I would summarize as follows: One, United States imperialism is continuing its policy of interfering in the affairs of every Latin American country, two, the struggle against United States imperialism must be continued and intensified. The broad struggle for peace needs to be unfolded and this is the main general task. Therefore, the people of Latin America demand a broad hemispheric conference for peace. It looks as if this conference may take place sometime this year and there is agreement that such a conference needs to be held. Now I understand that preparations and plans for such a conference are now going on ... I understand also, that another people's congress is also in the making and this will be a congress of all people of Latin America. No one will be excluded. All people who are interested in the control and independence of Latin America will be welcome.

NY 100-80641

Informant advised that CHILDS further remarked that there was no overall Latin American tradeunion organization. He said that Latin Americans were organizing trade unions on a regional basis.

Informant advised that a question and answer period followed but the added security of the blackboard was utilized and this information was not available to the informant.

IRVING POTASH stated that the tremendous spirit that exists among the Latin American people in this country (United States) should be utilized. He said that the idea of "Cuban American Friendship Organizations" could play a very important role. POTASH suggested further that one or two people should be designated to make a survey and bring in a report.

EUGENE DENNIS indicated that he was in favor of the above mentioned "friendship" matter.

The meeting ended and it was indicated that another meeting of this group would be held on 6/25/59.

On 7/24/59, NY 694-S* advised SA ALEXANDER C. BURLINSON as follows:

ELIZABETH MASCOLO, "girl friend" of TIM BUCK, Canadian CP leader, came to NYC on 7/24/59 and contacted NY 694-S*. She advised him as follows:

TIM BUCK had been summoned to Ottawa two days ago to confer with the Soviet Ambassador to Canada. The latter gave BUCK \$3500.00 in cash to transmit, through the CPUSA, to JOHN PITTMAN of San Francisco for transportation of PITTMAN and his family to Moscow. (According to NY 694-S*, the CPUSA had been considering sending PITTMAN to Moscow as "Worker" correspondent there.)

The Soviet Ambassador requested that BUCK ascertain through the CPUSA how many members of PITTMAN's family would go to Moscow; the names of those going; and where and when PITTMAN desired to pick up necessary visas.

The Soviet Ambassador also told BUCK that he had received instructions from the CPSU to ascertain through the CPUSA background information regarding an organization known as "The International League (or Association) of Free Journalists." According to the Ambassador, this organization had a conference recently (date not mentioned) in Tokyo. The topic discussed at the said conference was "Anti-Communism." Also, at this conference, there was a discussion of similar conferences to be held in other countries. Some American delegates had attended this conference. According to the Ambassador, the orders from Moscow were "to find out all you can concerning this organization."

MASCOLO indicated that Chicago CP functionary MORRIS CHILDS was familiar with the PITTMAN matter and possibly might be also familiar with "The International League (or Association) of Free Journalists." She requested that NY 694-S* obtain the

NY 65-16441

information requested as soon as possible, stating that she would remain in NYC until Sunday, July 25th, by which time she hoped NY 694-S* would be able to furnish to her the desired information.

MASCOLO also stated that MORRIS CHILDS should be informed that two young fellows, "MARVIN" and "CLUNY" (phonetic) came to Toronto and visited "World Youth Festival" officials. They said they were from Philadelphia, and asked for information regarding the West Coast and Midwest "Festival" delegations. The Canadian officials of the "World Youth Festival" were suspicious of "MARVIN" and "CLUNY," and furnished them no information.

MASCOLO gave the aforementioned \$3500.00 to NY 694-S* for transmittal through the EPUSA to JOHN PITTMAN.

BURLINSON that MORRIS CHILDS of the Chicago CP told him that MOLLIE WEST of the CP, USA, has received a passport and is to be the only one of the CP, USA, with authority to represent the CP at the World Youth Festival in Vienna. The informant was instructed by MORRIS CHILDS to transmit this information to the Soviets through TIM BUCK in Canada. SUBJECT: CG 5824-S*

Re Chicago teletype 7/1/59, captioned "NY 694-S*", requesting that NY 694-S* ascertain from TIM BUCK whether any word had been received from the CPSU re rank and file trade union delegates going to the Soviet Union, etc.

On 8/12/59, NY 694-S* advised that on the said date KONANA WILES, who is a sister of ELIZABETH MASCOLO, TIM BUCK's "girl friend", delivered to NY 694-S* a message from BUCK to be transmitted to CG 5824-S*. WILES had just returned from a trip to Toronto. The message was to the following effect:

About 3 weeks ago BUCK discussed with the Soviets the matter of trade union delegates going to Russia as well as a delegation of Negro intellectuals going to Russia. Proposals made to the Soviets regarding these delegations were accepted on condition that travelling expenses of the delegates to Moscow be paid either by the delegates themselves or by whoever sends them. All other expenses while abroad, including the cost of transportation home, would be paid for by the Soviets.

If this arrangement is agreeable to CG 5824-S* he should feel free to send to Moscow whomever he chooses. BUCK, however, should be advised concerning the number of people included in each delegation, their names and biographies, and the date when they plan to leave for Moscow.

NY 694-S* stated that CG 5824-S* should be advised that according to WILES, BUCK will leave Toronto on August 22nd, 1959, for a three week trip. (Destination not disclosed by WILES). CG 5824-S* further should be advised that WILES will leave NY for another trip to Toronto on Saturday, August 15th.

NY 694-S* also reported that WILES told him, in the informant's opinion, without instructions to do so from TIM BUCK, that recently two Russians from the Soviet Embassy in Canada were injured in an automobile accident while en route to meet TIM BUCK. As a result BUCK had to go to Ottawa to contact Soviet officials.

SUBJECT: CG 5324-S*

Captioned informant plans to make a trip to New York City on or about Sunday, 8/16/59, for approximately two or three days, if the condition of [redacted] does not become more serious prior to that date.

b7D

The purpose of the trip would be to maintain contacts in the National Office of the Communist Party - USA (CPUSA), discuss with PHIL BART and IRVING POTASH possibilities of sending delegations of trade unionists and Negro intellectuals to Russia, and possibly to audit the reserve fund account of the CPUSA.

CG 5324-S* has advised that recently, the physicians at Michael Reese Hospital in Chicago were somewhat elated with apparent results of nitrogen-mustard injections given to [redacted] although they warned CG 5324-S* that he should have no illusions that a cure was possible. Recent tests, however, have shown that the results of this treatment, while somewhat encouraging, were not as good as at first was believed. The physicians have strongly urged that [redacted] who has been in the hospital for over three weeks, remain in the hospital for continuation of the treatments and constant attention. They advised, however, that from the standpoint of maintaining her morale, if CG 5324-S* should have to leave Chicago for two or three days on business, she might consider that her condition, if not better, was no worse if the physicians advised CG 5324-S* that it would be all right for him to leave Chicago for that length of time.

at Santiago, California and went to Los Angeles and also spent one day in San Francisco before returning to New York.

While in Texas, JACKSON determined there is a good situation existing in the CP. There are approximately 70 CP members in Texas, centered mainly around Dallas and San Antonio. This membership is divided equally, about one-third white, one-third Negro and one-third Mexican. JACKSON indicated these people have access to many people and have the respect of the community. He was to have met "GONZALES", member of the Texas State Legislature, whom JACKSON indicated may well be the next Congressman from the district (San Antonio). He said GONZALES is a progressive person known to many CP people.

From Texas JACKSON proceeded to Mexico City and contacted (CHARLES) SMALLNIKOFF (ph), a custom jeweler, who operates the firm of RODRIQUEZ-SMALLNIKOFF. (CG 5824-S* has previously advised he supplied JACKSON with SMALLNIKOFF's address as Niza 47-C, Mexico, D.F. Informant also indicated at that time SMALLNIKOFF is the former CP organizer for the states of Florida and Georgia). JACKSON indicated SMALLNIKOFF placed him in contact with the Mexican CP. He said the CP in Mexico is illegal, its leadership is underground, and the leaders are in hiding. JACKSON could not meet "ANCIO" (ph), Secretary of the Mexican CP as ANCIO is in hiding in Cuba. Part of the Mexican CP leadership is also in hiding in Cuba with ANCIO.

JACKSON said that in Mexico City the CP is active as an underground operation and its main effective operation centers around the artists group led by "SECUNDO" (ph), a well-known artist.

JACKSON said there is a serious discussion taking place in the Mexican CP leadership. They do not want to have ANCIO continue as secretary of the Mexican CP (top post in Mexican Party), but want him to remain in leadership in some other capacity. JACKSON said the Mexican CP is very antagonistic toward the Mexican Government.

NY 100-16785

JACKSON continued that through SECUNDO he had met FRED FIELD. He said he had had a serious discussion with FIELD and had explained the situation of the CP, USA. FIELD was pleased and is changing his attitude toward the CP, USA and is awaiting a visit in September from LEM HARRIS.

While in Mexico, JACKSON ran into HARRY HAYWOOD, who he said is doing nothing and "living off his wife". He said that he had exposed HAYWOOD to the Mexican CP as being ultra-left, having been kicked out of the CP, USA, as well as the ultra-left. HAYWOOD was bitter at JACKSON's actions and plans to direct a letter of protest to the CP, USA.

After returning to Los Angeles, JACKSON talked to many people about the inner party situation in California. He found sentiment in California that GUS HALL should be the number one figure in the CP, USA, with EUGENE DENNIS relegated to the number two position.

JACKSON, in closing, indicated he desired to talk to CG 5824-S* relative to the situation of the Mexican CP and would furnish CG 5824-S* with all of the details. //

One extra copy of this airtel is being furnished the Bureau in the event the Bureau desires to transmit this information to the Legat, Mexico City.

\$200.00 on August 14, 1959, for a trip to New York City, starting on August 16, 1959.

September, 1959

\$500.00 for services rendered and normal expenses incurred during the period from September 1 through 15, 1959.

\$100.00 as reimbursement for excess of expenses over amount advanced for a trip to New York City and Toronto from August 16 to 20, 1959.

\$200.00 on September 10, 1959, as an advance for a trip to New York City, starting on September 11, 1959.

In addition to the above, the sum of \$100.00 was deposited each month in a special banking account in the name of the Special Agent in Charge of the Chicago Office for the informant for the months of May through August, 1959. As of September 1, 1959, the total amount in this account at the Chicago National Bank was \$4,575.50.

Based on the annual income tax return of CG 5824-S*, it is estimated that \$400.00 of the sum of \$1,000 received by the informant each month is expended in normal expenses. Since CG 5824-S* is engaged full time for the Bureau, his expenses are estimated instead of itemized, and an estimated breakdown of these expenses appears in Chicago letter dated October 15, 1957.

furnished information obtained from BUCK concerning the "Mine Mill and Smelter Workers Union," which is being furnished to the Bureau by separate communication.

According to NY 694-S*, pursuant to a request therefor from CG 5824-S, BUCK gave NY 694-S*, for transmittal to CG 5824-S, a memorandum concerning the Croatian Fraternal Union of America, Inc., the contents of said memorandum being as follows:

"Convention of Croatian Fraternal Union.

"Canadian branches of Croatian Fraternal Union are sending 26 delegates to national convention.

"Canadian delegation is fairly well united around following demands:

"(a) That one vice president be Canadian.

"(b) That one member of trial committee be Canadian.

"(c) That the full time administrator of the C.F.U. in Canada be a Canadian member of the Union.

"At present he is appointed by General Office and is not even a member of a Canadian branch. Subject to these demands the Canadian delegation will support the progressive line.

"The leading delegate from Canada will be MIKE CANIC from Vancouver. He is not a member of the Party but is the choice for Canadian vice-president."

According to NY 694-S*, he had been unable to contact BUCK immediately upon arrival in Toronto because BUCK was engaged in an important meeting with the Canadian CP

NY 65-16441

National Executive Committee. On 9/15/59, when the informant contacted BUCK and submitted to the latter a request for information relative to the case entitled, "SOLO, IS - C," BUCK promised to have such information available on or before 9/17/59.

Concerning the Canadian CP, BUCK stated that at the current NEC meetings there were being prepared final resolutions for submission to the coming Canadian CP Convention. He stated that the Canadian CP would elect to the National Committee 50 members, half of whom would be people never before members of the National Committee.

BUCK said that a current registration of the Canadian CP reflected there are now 3918 members. He also reported that the Canadian CP now is out of debt, income being greater than expenses. As a result, after the coming convention, more full-time paid functionaries will be appointed.

Regarding KHRUSHCHEV's visit to the USA, BUCK commented that the Canadian CP had suggested that KHRUSHCHEV visit Canada after his trip to the USA. KHRUSHCHEV, however, advised that inasmuch as his time was limited, he would be unable to visit Canada.

BUCK also advised that the Canadian CP would send three delegates to China for the celebration of the 10th anniversary of "Chinese Liberation." The said delegates are NELSON CLARKE, editor of the "Canadian Tribune;" "Beeching," head of the Saskatchewan CP; and "Carron," of the British Columbia CP. They will leave Canada on September 27, 1959, and go to Prague, whence they will go to Peiping.

According to NY 694-S, the only other individual he contacted on this trip to Toronto was SAM CARR, who furnished no pertinent information.

SUBJECT: ~~SECURITY INFORMANTS~~
~~USE OF DICTATING MACHINES~~

Offices receiving copies of this letter have been granted authority in specific cases to make available dictating machines to certain security informants for their use in the preparation of statements. Two of the offices, Cleveland and New York, also have received authority to use such machines in Bureau cars to facilitate obtaining information from security informants.

In order that the Bureau may have a current appraisal of the value of this technique, all offices are requested to advise by 10-1-59 in summary form the manner in which the machines are utilized for each informant involved. Identify the informants by symbol number. Comment should also be made regarding the security of the operation in each instance. You should also furnish a rough estimate of any savings in Agents' and informants' time through use of these machines.

The information will be utilized for consideration in extending this procedure and any suggestions which you may have in that regard should also be set forth.

SECURITY INFORMANTS
USE OF DICTATING MACHINES

Re Bulet to Chicago dated September 17, 1959.

CG 5824-S* has been provided with a dictating machine. The informant keeps this machine hidden in a "walk-in" closet in his wife's bedroom, which is located on the second floor of their residence. When utilizing it, he also uses his wife's bedroom. Thus, maximum security is guaranteed in its utilization and storage.

In recent months, CG 5824-S* has not used the dictating machine as frequently as he has in the past, since he feels that it is easier to meet with the contacting Agent or to telephone the information. While the use of the machine may add to the time spent by CG 5824-S*, it probably reduces the time spent by the Agent by one-half in the case of a report of average length. It is also felt that the use of the machine adds to the accuracy of the minute details of a report.

Since CG 5824-S* is extremely security conscious at all times, very little, if any, problem is ever presented in any techniques utilized by the Chicago Division in his operations. It is possible that not all informants pay as much attention to security as does CG 5824-S*.

If the security of the utilization of a dictating machine can be assured, the Chicago Division feels that this procedure should be extended for the following reasons:

ly
(1) It definitely reduces time spent by the contacting Agent.

(2) In most instances, it would probably reduce the time spent by the informant, since time expended in going to and returning from a meeting with the contacting Agent in a secure place could be eliminated.

2 - Bureau (REGISTERED)
1 - Chicago

JEK/kws

(3) jws

(3) It provides an accurate record of the informant's oral report. In cases where informants normally provide written reports, it would probably add to the quantity of information received, since it would be easier to dictate than to laboriously write out a report in long-hand. In cases where the informant normally provides oral reports, the informant could dictate soon after he attended a meeting instead of waiting for a convenient time to meet with the contacting Agent. Thus, the information would be fresh in his mind and should add to both the quantity and quality of the information received.

It will be noted that by letter dated 1/8/59, the Bureau authorized the expenditure of \$8155.00 for operation of the cover company during 1959, in addition to expenditure of sums for the purchase of stock during 1959 from funds available from sales.

To date, the informant has been given \$5000.00 for operation of the company during 1959. (The sum of \$1000.00 given him on 1/9/59 was for expenses incurred during 1958) Pursuant to instructions in Bulet 5/12/59, expenses for sales promotion, advertising, and general operation during November and December 1959 will be paid for--so far as possible--out of available cash, which, as reflected

NY 134-91A

in instant report, approximates \$2988.84.

The informant continues to spend approximately two hours per day on cover company business, exclusive of the time required to prepare financial reports of cover company operation for the Bureau. The NYO believes that the expenditure of this two hours per day is justified and necessary, and that it is not adversely affecting the informant's activities in behalf of the Bureau.

CG 5824-S* orally advised SA JOHN E. HEATING on 11/16/59, that CLAUDE LIGHTFOOT, member of the National Executive Committee of the Communist Party, USA (CP), and Chairman of the CP of Illinois, stated that a convention issue of "Party Affairs" contains an article by WILLIAM Z. FOSTER. LIGHTFOOT stated that this article presents the extreme left viewpoint and could start the war all over again in the CP, USA. For example, FOSTER states that the CP, USA, must self critically admit that it did not overestimate the war danger. LIGHTFOOT commented that this is ridiculous since if the CP, USA, had underestimated the war danger the United States and Russia would be at war instead of exchanging friendly visits between President EISENHOWER and NIKITA KHRUSHCHEV. LIGHTFOOT stated the Illinois District of the CP, USA, is not going to distribute this issue of "Party Affairs" because it represents the left viewpoint and gives support to the extreme leftists in the Party. He stated that if anyone asks why it was not distributed in Illinois he will be told that the copies came to Chicago too late to be distributed.

Recently CG 5824-S* has advised that the CP, SU, has indicated that it will give less open support to the CP, USA, so as not to disturb what is termed the new relationship

between the United States and Russia. While the CP, SU, will not abandon the CP, USA, it will give it support, including financial support, in an underhanded way. At the present time the CP, SU, would consider it ideal if it could give financial support to the CP, USA, and not be bothered with any other problems of the CP in the United States.

CG 5824-S* was asked for his opinions in regard to how the above could best be used against the international Communist movement and particularly the CP, USA.

CG 5824-S* suggested that the Bureau, through the medium of a well-known newspaper reporter or columnist, but not one known as an ultra-conservative, release excerpts from FOSTER's article in "Party Affairs". (It is assumed that this article will be available to the Bureau and the New York Division). It could also be stated that FOSTER has always been supported by the CP, SU, and one indication of this is the frequent reprinting of his articles, his long tenure in the leadership of the CP, USA, and so forth. It can be stated that the CP, SU, supports FOSTER, GUS HALL and other hard-core elements in the leadership of the CP, USA, against what may be considered a more moderate leadership of EUGENE DENNIS. Further, that the Russians are not satisfied with the fact that the leadership of the CP, USA, has eliminated the revisionists because it now wants the leadership of the CP, USA, to eliminate even those who hold high the banner of Marxism-Leninism but who are not one hundred per cent supporters of Soviet policy. A change in the leadership of the CP, USA, at the 17th National Convention away from the present leadership of EUGENE DENNIS will demonstrate to what extent the CP, SU, influences and controls the CP, USA.

It could also be stated that the Russians do not want anyone in the leadership of the CP, USA, who is not one hundred per cent behind Soviet policy. If there is a change in the leadership of the CP, USA, at the 17th National Convention in favor of the hard core, as represented by FOSTER, DAVIS, and HALL, which emphasizes the war danger, this will mean that the Russians are engaged in double dealing. In their official relationships with the U.S. Government they say that they want peace. On the other hand, they want people in the leadership of the CP, USA, who emphasize the war danger. If the CP, USA, has agreement on policy, as it claims in the pre-convention resolution, why then is it contemplating a change in its national leadership? Is it because the Russians want an ace up their sleeve in the form of a more militant CP in the United States which will put pressure on the U.S. Government from the rear while the American and Russian Governments are negotiating for peace and better international relationships.

~~SECRET~~~~CONFIDENTIAL SECRET~~

CG 100-32864

~~SECRET~~

~~CONFIDENTIAL~~

CG 5824-S* is of the opinion that a release and editorial of the type outlined above might do the following:

- (1) Scare the Russians into reducing or taking away their support, including financial support, from the CP, USA, so as not to jeopardize what they term the new relationship between the United States and Russia. The CP, USA, would, of course, be greatly weakened if this were to happen.
- (2) It might bolster the chances that EUGENE DENNIS will remain in control of the Party if both the CP, SU, and the CP, USA, feel that a change in the leadership will be interpreted by the American people as dictated by the CP, SU, in order to have a more militant CP in the United States. CG 5824-S* has a good relationship with DENNIS and it would be to his advantage, and thus to the advantage of the Bureau, if DENNIS remains in the leadership.

It might also be noted that [redacted] has a close relationship with JIM JACKSON who is also a close friend and supporter of DENNIS. The Chicago Division is not aware of any informant operating at a national level who would be greatly benefited if HALL or DAVIS assumes control of the CP, USA. A tougher leader than DENNIS might mean that we could lose some contacts inside the leadership of the CP, USA. Furthermore, a leadership which will not compromise could contribute to the strength of the CP, USA, and could make for a monolithic Party in the United States.

b7D

The Chicago Division feels that the above suggestions might be utilized to excellent advantage; however, to be effective, the suggested newspaper release should be made as quickly as possible and certainly well before the start of the 17th National Convention of the CP, USA, on 12/10/59.

GUS HALL confer privately regarding the leadership issue over the weekend of November 14 and 15, 1959. DENNIS and HALL so conferred, and on 11/16/59, they submitted to the aforesaid subcommittee the following leadership proposals:

Chairman	EUGENE DENNIS
Vice-Chairman	ELIZABETH GURLEY FLYNN
Vice-Chairman	CLAUDE LIGHTFOOT
General Secretary	GUS HALL
Educational Director	HYMAN LUMER
Editor-in-chief of "The Worker"	JAMES JACKSON
National Secretary	BEN DAVIS

DENNIS and HALL also proposed that from the above-named, an executive committee of five, equivalent to a "secretariat" or "politburo", should be chosen. Four of the five proposed were DENNIS, HALL, DAVIS and JACKSON. (NY 694-S advised that JACKSON scribbled these names on a piece of paper and then destroyed the paper. The informant was unable to read the fifth name.)

DENNIS and HALL also suggested that there be a national board. (JACKSON did not furnish any information about the proposed composition of said board.) They also proposed that the National Committee be composed of 45 members.

According to JACKSON, all members of the sub-committee, with the exception of BEN DAVIS, agreed to the proposals of DENNIS and HALL. DAVIS proposed that he himself be chairman.

During the course of the sub-committee meeting on 11/16/59, CLAUDE LIGHTFOOT called DENNIS from Chicago and suggested that the sub-committee "hold everything."

According to JACKSON, DENNIS requested that Chicago CP functionary MORRIS CHILDS come to New York on 11/18/59 or 11/19/59 to confer with DENNIS and HALL. Pending the arrival of CHILDS, and his conference with DENNIS and HALL, the discussion of the leadership question is being postponed. At the moment it is not known whether it will be possible for MORRIS CHILDS to come to New York.

Office Memorandum • UNITED STATES GOVERNMENT

TO : SAC (134-46)

DATE: 12/1/59

FROM : SA JOHN E. KEATING

SUBJECT: CG 5824-S*

CG 5824-S* has not been able to make definite arrangements for travel in connection with the 17th National Convention of the Communist Party - USA because of the condition of [redacted] and because no definite word has as yet been received that the national leadership wants him to participate in a part or all of a previously scheduled meeting of the National Executive Committee during the weekend of December 4-6, 1959.

CG 5824-S* is scheduled to attend a meeting of the National Appeals Committee in New York City on December 7, 1959. The National Committee meets on December 9, 1959, and the 17th National Convention is from December 10 through 13, 1959.

If CG 5824-S* leaves Chicago during the weekend of December 4-6, 1959, he would be away from Chicago approximately ten days. He feels that for the morale of [] he should not be away this long and that it is imperative that he try to return for at least one day.

It is, therefore, suggested that Bureau authority be requested to advance CG 5824-S* up to \$500 for two trips to New York City and expenses in connection therewith during the period between December 4 through 13, 1959.

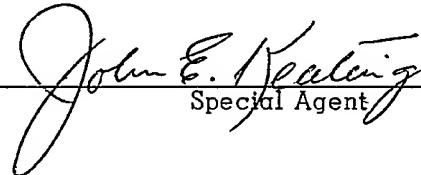

It is also suggested that the Bureau be asked if it wants SA JOHN E. KEATING in New York City to obtain current information and opinions from CG 5824-S*. If the Bureau approves, SA KEATING would leave Chicago either during the weekend of December 5-6, 1959 or on December 7, 1959, depending upon the concrete plans of CG 5824-S*.

NY 694-S*
CG 5824-S*

ReNY lets 10/29/59 and 12/24/58.

NY 694-S* has submitted a proposed 1960 budget for the operation of the cover company in the amount of \$9233.00. As will be noted hereinafter, the informant has deleted from the proposed 1960 budget the following items appearing in the 1959 budget (see pages 4 and 5 of referenced NY let dated 12/24/58): \$535.00 for advertising of drawing stands in dealer magazines; \$500.00 for wholesale sales promotion of drawing stands among dealers by means of brochures, sales letters, etc. and \$500.00 for anticipated travel expenses.

As also will be noted hereinafter, there is reference to Project-O-Stands. These are stands for movie cameras and viewers. The informant has contracted with the manufacturer (who also manufactures the drawing stands) to be agent for the sale of the Project-O-Stand as a substitute for television tripodes and industrial tripodes which, for technical reasons, the manufacturer never put on the market, and for which the cover company was to have been sales agent.

It should be further noted that amounts proposed to be spent for advertising were determined after consultation by NY 694-S* with Michael W. Schoen and Co., 215 4th Avenue, NYC, an advertising and sales promotion company retained by the cover company.

The proposed 1960 budget is as follows:

3 - Bureau (100-340711) (RM)

It will be noted that the item of \$500.00 for anticipated travelling expenses appearing in the 1959 budget also has been deleted from the proposed 1960 budget.

The informant advised that sales in 1959, not including refunds and accounts receivable, approximated \$3419.00. Present stock on hand is valued at \$1500.00 retail, and there is approximately \$1100.00 on deposit in the cover company's bank account. All bills for advertising and merchandise for the 1959 period have been paid. It is not anticipated that additional funds will be needed for the purchase of stock during 1960.

Recommendations of NYO

From the standpoint of financial success, it is evident that the cover company is not self-supporting, and that it is problematical whether it will be in the immediate future. Inasmuch as, by reason of their Bureau operations, the time the NY and Chicago informants can devote to this business is extremely limited, it is felt they have done as well as can be expected under the circumstances.

As a cover for a very important intelligence operation, the cover company, in the opinion of the NYO, is excellent, and the proposed expenditure for 1960 in connection with its operation justifiable. The NYO recommends that the cover company be continued in 1960, and that the proposed budget for 1960 be authorized.

NY 694-S* continues to spend approximately two hours per day on cover company business without affecting adversely his activities in behalf of the Bureau.

As the Bureau is aware, NY 694-S* is currently preparing to go abroad and may not return to New York until the latter part of January, 1960. In his absence the cover company business will be controlled directly by the Chicago Office of the said company. Should the proposed 1960 budget be authorized, it is recommended that the Bureau authorize Chicago to advance to

NY 134-91A

to CG 5824-S*, pursuant to the provisions of the budget, whatever funds are necessary for the operation of the business during the absence of NY 694-S*. Chicago is requested to advise the NYO of any such advances made to CG 5824-S so that such advances may be reflected in the periodic accounting report submitted by the NYO.

It is to be noted that the next periodic accounting report is to be submitted to the Bureau prior to January 31, 1960.
